## **Peanut free environment**

Dear Parents/Guardians:

As you are already aware perhaps, we have a few students at the school who are allergic to nuts and peanuts. This means that the child is allergic to all foods that may contain nuts, peanuts or peanut oil. The allergic reaction to peanuts is so severe that even the smell could trigger a reaction and put this child's life in danger.

We are therefore requesting that you do not give your child meals or snacks containing nuts or peanuts. All the students and school personnel have been informed about the situation. Students have been directed not to share their snacks with any other student. Staff members have been given training on emergency procedures to be followed in the event of an anaphylactic shock.

There may be other allergies in your child's class. If this is the case, we will be notifying you about the situation.

Thank you for your collaboration, which will ensure that our school is a safe place for all our students.

Sincerely,

Valerie Link  
Principal
